# *Introduction to Façade Design & Engineering*

on *Tuesday, 21 February 2017*  
by *Jane Shen*

<b>Venue:</b>	Room TU201, The Hong Kong Polytechnic University, Hung Hom, Kowloon
<b>Time:</b>	6:45pm (Registration) for 7:00 pm to 8:00 pm

## *About the Seminar*

The potential of curtain wall system has been widely recognized and accepted as a popular form of façade in recent years. Curtain wall is no more unique to super high-rise commercial developments, but appears more and more often on buildings for housing and public use. One of the keys to successful adoption of curtain wall is the collaborations between façade engineers and designer from other disciplines. Thus, the appreciation of curtain wall system is an important step towards better communications in design.

This seminar is to give an introduction of façade elements, the materials used, design and engineering concepts and also help audience to better understand the terminologies used in the façade industry.

## *About the Speaker*
