Product Certification on Fire Doors

Ir. C.K. Cheung
Hong Kong Accreditation Service

Abstract:

Type testing of fire doors may not be representative of the actual batch of fire products produced and subsequently installed in buildings. Product certification is a more reliable process to assure the quality and authenticity of the fire doors manufactured. However, it is up to the industry to make a wise choice.

Speaker:

He is in charge of the accreditation of fire testing laboratory under HOKLAS and of fire product certification body under HKCAS.
