

## HALF-DAY SEMINAR ON ESSENTIAL ASPECTS OF WELDING IN BUILDINGS

Organized by  
The Hong Kong Institute of Steel Construction  
Department of Civil and Environmental Engineering, The Hong Kong Polytechnic University

Supported by  
Joint Structural Division, The Hong Kong Institution of Engineers

Date:	24 November 2017 (Friday afternoon)
Venue:	Room FJ303, The Hong Kong Polytechnic University, Hunghom, Kowloon
Time	1:45 pm (registration) for 2:00 pm to 5:45 pm

### Scope and Objectives

Welding is the commonly used process for joining steel materials by raising local temperature so as to effectively fuse the two pieces of steel together. As proper welding works attribute to the structural safety of building works, essential procedures, specifications and certificates of welding in buildings are required to be submitted for approval under the Buildings Ordinance.

The Code of Practice for The Structural Use of Steel 2011 stipulates the requirements of essentials of welding in the approval letter as conditions, which may comprise the following: -

- a) Welding consumables
- b) Welding procedure specifications
- c) Welder test certificates

This seminar is tailor-made for building professionals, particularly those Technically Competent Persons (TCP) of the Supervision Plan System under the Buildings Ordinance, to refresh them with basic knowledge on the pre-requisites of welding aspects and to enlighten them with updated information in the essential aspects of welding works in buildings as required under the Buildings Ordinance.

HKISC is pleased to invite the speaker Mr. Vinodh Kumar, who is the Manager (NDT & Welding) of Fugro Technical Services Ltd., Hong Kong. Mr. Vinodh acquires his BEng (Hons) from Australia and has gained many international Certifications in Non-destructive Testing, Welding, Painting, Coating, Asset Integrity and QHSE Management Systems.

**Official Language**

English will be the official language medium of the seminar.

**Fees & Registration**
