*Structural Division, The Hong Kong Institution of Engineers &
Department of Civil and Environmental engineering, The Hong Kong Polytechnic University*

Venue:	Online Webinar
Time:	6:25 pm (registration) for 6:30 pm to 7:30 pm

About the Seminar

A construction contract is a document that outlines the specifics of a construction project including the project budget, timeline of completion, and the relevant parties involved in the project. A construction contract is important for all parties concerned with the carrying out of a construction project, including the person requesting the work and the contractor.

The talk is to introduce basic but important concept of the law governing construction contracts. The subject is important to construction related professional. The talk will cover “Rights, Obligations and Remedies of Parties” and “Repudiation, Termination Contractual, Determination and Insolvency”.

About the Speaker
